OF THE

2015 FRAME BUILDING EXPO

At the Frame Building Expo in Louisville this year, a special product area was designated as a Builder Block to showcase special products from exhibitors. Visitors were then given an opportunity to vote for their favorite products. The # 1 choice among voters was Novaflex from Novagard!

Other products making it into the top 5 were: LP2 RidgeVent from Marco Industries; Insulated Metal Panels (IMP) from McElroy Metal; Perma-Columns from Perma-Column; and WeatherXL Crinkle Finish from Valspar. Following is a closer look at all the winners.

1 **Novaflex**
Circle 101

Novaflex Metal Roof Sealant from Novagard is a premium neutral cure silicone sealant used by all types of construction professionals. It has excellent adhesion to most substrates, including Kynar metal, and is extremely flexible. This sealant extrudes down to -20 degrees F and up to 120 degrees F, allowing contractors to use the sealant in all climates. This is the sealant to use on all your projects if you want to get the job done right the first time! Recommended for use around wood, metal siding, galvanized steel, flashing, metal roof, trim, galvanized gutters, PVC, aluminum, masonry, downspouts, roof tile.

2

LP2 Ridge Vent Circle 102

Marco Industries' Weathertite "LP2" Ridge Vent improves ventilation, eliminates condensation, and is available at costs lower than traditional fans and louvers... Plus LP2 offers a 40-year warranty! Made from non-fabric-covered Python vent material, this durable, modified polyester has a non-woven, non-wicking fiber-based matting for superior net-free ventilation that helps keep out moisture, pests and dusts. Installation is easy with Marco's superior peel and stick adhesive, fasteners and specially-cut contours designed for a low-profile fit with any pitch roof and most major metal roof profiles.

3

McElroy IMP Circle 103

McElroy Metal offers Insulated Metal Panel (IMP's) in thickness from 2-6 inches. Panels are formed by a continuous poured-in-place manufacturing process which binds interior and exterior steel facings to a polyisocyanurate insulating foam core. IMP's represent an opportunity for post-frame builders to provide an energy efficient and attractive alternative for their building packages.

4

Perma-Columns Circle 105

Perma-Columns are 5-foot pre-cast concrete columns that keep wood out of the ground, ensuring your building's foundation will never rot. They are the first product to combine the economy of post-frame construction with the durability of a concrete foundation.

5

WeatherXL Circle 104

Valspar's WeatherXL Crinkle Finish coatings deliver outstanding durability with a unique, textured appearance that redirects light for enhanced visual depth. Designed to create a shifting and shimmering effect, WeatherXL Crinkle finish is available in a number of color options that meet solar reflectivity (SR) standards for LEED and Energy Star.
