Office Mianager.*

*Paul Riddell
President and CEO,
Riddell & Co.*

If you’re going to do construction work for high-profile companies like Sports Authority and Chipotle, you have to deliver excellent work at a competitive price. Riddell & Co. of Denver does both with the help of Novaflex Metal Roof Sealant. Riddell uses Novaflex primarily to install architectural wall panels. “I love Novaflex and the rate at which it cures and skins over,” said CEO Paul Riddell. “It seals things up and keeps out dust and dirt.”

Adhesion to a variety of surfaces is another big plus for Riddell. Novaflex provides superior flexibility and adhesion to metal, coated metal, wood, Kynar®, masonry, PVC and other materials.

“It’s easy to match colors with Novaflex, too,” added Paul. “The stock of colors is huge.”

It’s a great product and a great value.”

Get Novaflex performing on your jobs. Call us at 800-380-0138.

Riddell & Co. recommended Novaflex Metal Roof Sealant for use on the architectural wall panels, single skin metal shingle, and fiber cement board siding in this mixed-use development.
