## Solutions™

### Window & Door Sealants

Novagard Solutions™ is a leading manufacturer of a complete line of sealants that meet the needs of window and door manufacturers. Novagard Solutions' products are ideally suited for all manufacturing setups from completely automated to hand glazed units. In the event Novagard Solutions doesn't have a standard product to solve your problem we will work with you to develop a solution.

**Novaflex® Fenestration Sealants** – Novaflex is a single-component VOC compliant oxime-cure silicone sealant. Novaflex will develop primer-less adhesion to most common building materials and substrates. Novaflex is a versatile compound used frequently in glazing, structural back-bedding, heel, cap, toe bead, mullion joinery, PVC sash lineal reinforcement, bay/bow fabrication, secondary seal for dry-glazed sash, mitre and seam sealing.

- Single-component oxime-cure silicone sealant
- Provides a durable, flexible seal
- Excellent UV and ozone resistance
- 18 standard colors and custom color matches available
- AAMA approved
- 18 month shelf life from the date of manufacture

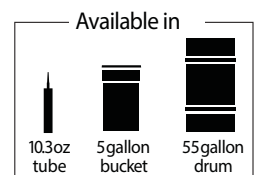

### Novaflex® SB Bedding Silicones –

Novaflex SB bedding silicone is a patented material developed to compliment any type of glazing rabbet profile design. The Novaflex SB bedding silicone combines oxime-cure silicone technology with consistently sized spacer-beads to provide a “liquid shim”.

The bead assures controlled compound thickness

between the glass and the sash. This will maximize sash performance while minimizing sealant consumption.

- Single-component oxime-cure silicone sealant
- Provides a durable, flexible and reliable seal
- Available bead sizes include 0.030”, 0.040” and 0.050”
- Customize your cure rate, viscosity and physical properties
- 2 standard colors and custom color matches available
- 18 month shelf life from the date of manufacture

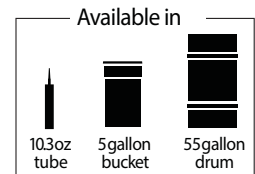

## Window & Door Sealants

**Novaflex® Impact Resistant Sealants** – Novagard Impact Resistant Sealants are non-corrosive, single-component silicone sealants that will cure upon exposure to atmospheric moisture. These impact resistant sealants can be utilized in window fenestrations needing to pass Miami-Dade County Code and other regional and state coastal requirements.

- Single-component oxime-cure silicone sealants
- Provides ultimate tensile strength - ~370 PSI
- Cures to a tough durable elastomeric rubber
- Non-corrosive by products
- Available in Gray, Black and Clear

### Additional Information

Novagard Solutions believes that the information provided is a true and accurate description of the typical characteristics of the aforementioned products. However, it is the responsibility of the individual user to thoroughly test the product in their specific application to determine performance, efficacy and safety.

Novagard Solutions technical assistance is available for product recommendations, physical property modifications, adhesion testing, compatibility and structural applications.

### Warranty

Novagard Solutions warrants that our products meet our specifications. There is no warranty for merchantability or fitness of use, nor any other express or implied warranties. All recommendations for use of these products are derived from test and data believed to be reliable. Manufacturer shall not be liable for injury, incidental or consequential damages resulting from use of this product. Manufacturer's only liability shall be to replace that portion of the product proven to be defective.
